Subject: RE: Second instance: Discussion re: the PFAS data calls (Regional Places of Interest, and the PFAS Data Inventory)
Importance: High

Hi Andy, do you have a few minutes today to discuss this request? Also wondering if you are available any time tomorrow during the hour from 2:00 – 3:00 to speak with our internal group to address their concerns?

Becky B. Allenbach, Deputy Director
Water Division
EPA Region 4
Office 404-562-9687

Hi Andy,

I missed the first call on this and not sure if there was different discussion on that one? Anyway, when I look at the places of interest, I only see 5 military bases. Is that Region 4's part of the 41 we are to confirm for you?

Becky

Subject: Second instance: Discussion re: the PFAS data calls (Regional Places of Interest, and the PFAS Data Inventory)

Colleagues, I just sent an update for this meeting, adding the link to the current draft PFAS geospatial tool so you can see what locations are already in the system.

Below is the updated note added to the invite.

Best regards, Andy

Colleagues – as noted, this call will continue the discussion on the Regional Places of Interest (first spreadsheet below).

Here is a link to the current working draft of the PFAS Data Explorer: [National PFAS Data Explorer](#)

If you click on the “Integrated map” tab you can see a map of the PFAS places currently in our system. Click on the other tabs (drinking water, federal sites) to see certain classes of PFAS places.

What we are trying to do with this regional data call is to make sure that we include places of known EPA PFAS activity which are NOT captured on other layers.

We are starting with the list of places that regions provided for another purpose last year (spreadsheet below). asking you to add and delete from that to make the list of places you want to be sure are included. We’ll do a simple demo for those who want to follow along, go to Adobe at: Ex. 6 Personal Privacy (PP)
